

P1 nested hierarchy / P2 loops
→ two-level nested nanomesh

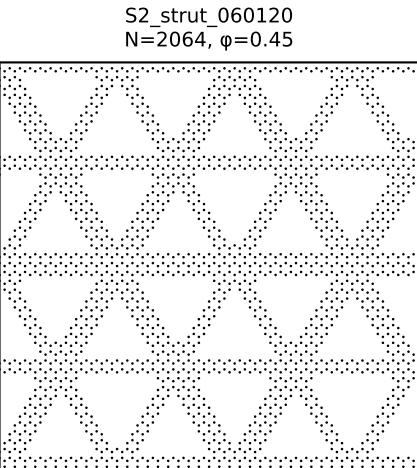

P1/P3/P5 closed coarse walls, scale separation
→ three-level nested nanomesh

P6 disorder / P7 tortuous paths
→ periodic Voronoi ligament network

P8 straight paths / P9 connectivity
→ 0/60/120 strut lattice

P10 gradient / P11 halo around a flaw
→ hole with two pore rings
